The Final Solution: A Genocide (Oxford Histories)

Donald Bloxham

The Final Solution: A Genocide (Oxford Histories) Donald Bloxham

The Holocaust is frequently depicted in isolation by its historians. Some of them believe that to place it in any kind of comparative context risks diminishing its uniqueness and even detracts from the enormity of the Nazi crime. In reality, such a restricted understanding of "uniqueness" has pulled the Holocaust apart from history and set up barriers to a better understanding of the racial onslaught unleashed within the Third Reich and its conquered territories.

Working against the grain of much earlier writing, this innovative new history combines a detailed re-appraisal of the development of the genocide of the Jews, a full consideration of Nazi policies against other population groups, and a comparative analysis of other modern genocides.

The Holocaust is portrayed as the culmination of a much wider history of European genocide and ethnic cleansing, from the late nineteenth century onwards. Ultimately, Bloxham shows that an explanation for the Holocaust rooted exclusively in Nazism and anti-Semitism is inadequate when set against one that is both prepared to give due weight to the immediate circumstances of the Second World War in eastern Europe and to situate the Jewish genocide within the broader patterns of human behavior in the late-modern world.
