The Practice of Emergency and Critical Care Neurology Eelco F. M. Wijdicks MD PhD FACP

The Practice of Emergency and Critical Care Neurology serves as the definitive authoritative reference on the care of the patient with a critical neurologic disorder at risk of deterioration and in need of immediate attention. This work is an expanded new edition of the book on the management of patients with critical neurologic disorders. This single-authored monograph is broad in scope and follows the patients from the very moment they enter the emergency department to their care in the neurosciences intensive care unit. This book condenses the essential information into several sections. These are: The General Principles of Recognition of Critically Ill Neurologic Patients in the Emergency Department, The Evaluation of Presenting Symptoms Indicating Urgency and Critical Emergency, General Principles of Management of Critically Ill Patients, Monitoring Devices and Diagnostic Tests, Complete Management of Specific Disorders in the Neurosciences Intensive Care Unit, Postoperative Neurosurgical and Neurointerventional Complications, Management of Medical Complications and End of Life Care. This accessibly written book differs from the conventional by specifically following the time course of clinical complexities as they emerge and change. It offers advice on how to diagnose and manage acute neuromuscular respiratory failure, acute worrisome headache, acute febrile confusion, acute diplopia, acute movement disorders, acute paraplegia, seizures and coma of uncertain cause in the emergency department. The major disorders requiring neurocritical care are covered in great detail and include traumatic brain injury aneurysmal subarachnoid hemorrhage, cerebral hemorrhage, hemispheric ischemic stroke, basilar artery occlusion, acute bacterial meningitis and encephalitis, myasthenic crisis and severe Guillan Barre syndrome. This book comes with a pocket book of selected tables and figures. This booklet covers all essential points for quick reference and has been considered a survival guide for the house staff.

From reader reviews:

Beth Stewart:

Here thing why this The Practice of Emergency and Critical Care Neurology are different and trusted to be yours. First of all examining a book is good but it depends in the content of computer which is the content is as delicious as food or not. The Practice of Emergency and Critical Care Neurology giving you information deeper since different ways, you can find any e-book out there but there is no e-book that similar with The Practice of Emergency and Critical Care Neurology. It gives you thrill studying journey, its open up your current eyes about the thing which happened in the world which is possibly can be happened around you. You can actually bring everywhere like in recreation area, café, or even in your approach home by train. When you are having difficulties in bringing the printed book maybe the form of The Practice of Emergency and Critical Care Neurology in e-book can be your choice.

Ronald Hill:

In this era globalization it is important to someone to get information. The information will make anyone to understand the condition of the world. The healthiness of the world makes the information much easier to share. You can find a lot of personal references to get information example: internet, classifieds, book, and soon. You will observe that now, a lot of publisher that will print many kinds of book. Typically the book that recommended to your account is The Practice of Emergency and Critical Care Neurology this book consist a lot of the information with the condition of this world now. This kind of book was represented how can the world has grown up. The terminology styles that writer require to explain it is easy to understand. Often the writer made some research when he makes this book. This is why this book acceptable all of you.

Ronnie Miller:

Do you like reading a guide? Confuse to looking for your selected book? Or your book had been rare? Why so many problem for the book? But almost any people feel that they enjoy with regard to reading. Some people likes examining, not only science book but also novel and The Practice of Emergency and Critical Care Neurology or perhaps others sources were given information for you. After you know how the great a book, you feel desire to read more and more. Science book was created for teacher or perhaps students especially. Those textbooks are helping them to bring their knowledge. In various other case, beside science e-book, any other book likes The Practice of Emergency and Critical Care Neurology to make your spare time far more colorful. Many types of book like this.

Jennifer Lorenzo:

As a university student exactly feel bored to be able to reading. If their teacher inquired them to go to the library or even make summary for some publication, they are complained. Just small students that has reading's heart and soul or real their pastime. They just do what the professor want, like asked to go to the library. They go to right now there but nothing reading very seriously. Any students feel that studying is not

important, boring and can't see colorful pics on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this The Practice of Emergency and Critical Care Neurology can make you really feel more interested to read.
