**Examines religious practices from an anthropological perspective**

Religions in Practice, 6/e, offers an issues-oriented perspective on everyday religious behaviors – prayer, sacrifice, initiation, healing, etc. – by focusing on such topics as transnationalism, gender, and religious laws. The text examines a full spectrum of religions, from small-scale societies to major, established religions. The in-depth treatment of Islam, Hinduism, and Christianity is particularly noteworthy and easily supplemented with field projects directly related to the text.
