Beyond UFOs: The Search for Extraterrestrial Life and Its Astonishing Implications for Our Future

Jeffrey Bennett

The quest for extraterrestrial life doesn't happen only in science fiction. This book describes the startling discoveries being made in the very real science of astrobiology, an intriguing new field that blends astronomy, biology, and geology to explore the possibility of life on other planets. Jeffrey Bennett takes readers beyond UFOs to discuss some of the tantalizing questions astrobiologists grapple with every day: What is life and how does it begin? What makes a planet or moon habitable? Is there life on Mars or elsewhere in the solar system? How can life be recognized on distant worlds? Is it likely to be microbial, more biologically complex--or even intelligent? What would such a discovery mean for life here on Earth?

Come along on this scientific adventure and learn the astonishing implications of discoveries made in this field for the future of the human race. Bennett, who believes that "science is a way of helping people come to agreement," explains how the search for extraterrestrial life can help bridge the divide that sometimes exists between science and religion, defuse public rancor over the teaching of evolution, and quiet the debate over global warming. He likens humanity today to a troubled adolescent teetering on the edge between self-destruction and a future of virtually limitless possibilities. *Beyond UFOs* shows why the very quest to find alien life can help us to grow up as a species and chart a course for the stars. In a new afterword, Bennett shares the most recent developments in extrasolar research, and discusses how they might further our quest to find alien life.

From reader reviews:

Christopher Hill:

Nowadays reading books are more than want or need but also work as a life style. This reading routine give you lot of advantages. The advantages you got of course the knowledge the particular information inside the book which improve your knowledge and information. The info you get based on what kind of publication you read, if you want send more knowledge just go with schooling books but if you want truly feel happy read one along with theme for entertaining for instance comic or novel. The actual Beyond UFOs: The Search for Extraterrestrial Life and Its Astonishing Implications for Our Future is kind of reserve which is giving the reader capricious experience.

Maria Carlin:

Your reading sixth sense will not betray you, why because this Beyond UFOs: The Search for Extraterrestrial Life and Its Astonishing Implications for Our Future e-book written by well-known writer whose to say well how to make book that can be understand by anyone who also read the book. Written with good manner for you, dripping every ideas and publishing skill only for eliminate your current hunger then you still hesitation Beyond UFOs: The Search for Extraterrestrial Life and Its Astonishing Implications for Our Future as good book not simply by the cover but also by the content. This is one guide that can break don't determine book by its protect, so do you still needing one more sixth sense to pick that!? Oh come on your looking at sixth sense already said so why you have to listening to an additional sixth sense.

Thomas Pilcher:

Are you kind of stressful person, only have 10 as well as 15 minute in your morning to upgrading your mind proficiency or thinking skill possibly analytical thinking? Then you are having problem with the book when compared with can satisfy your short space of time to read it because this time you only find book that need more time to be read. Beyond UFOs: The Search for Extraterrestrial Life and Its Astonishing Implications for Our Future can be your answer because it can be read by anyone who have those short extra time problems.

Barbara Kyle:

As a pupil exactly feel bored to be able to reading. If their teacher expected them to go to the library as well as to make summary for some book, they are complained. Just very little students that has reading's heart or real their interest. They just do what the teacher want, like asked to go to the library. They go to presently there but nothing reading really. Any students feel that examining is not important, boring and also can't see colorful pictures on there. Yeah, it is being complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this Beyond UFOs: The Search for Extraterrestrial Life and Its Astonishing Implications for Our Future can make you experience more interested to read.
