New Perspectives in Caribbean Tourism (Routledge Advances in Tourism)

The Caribbean is one of the most tourism dependent regions of the world. This edited volume extends beyond the frontiers of normative perspectives of tourism development to incorporate "new" ideas and perspectives that relate to the socio-cultural, political and economic realities of these societies. This edited text therefore explores tourism in the region within the context of key currents of Caribbean thought and critique in relation to issues of dependency, postcolonial interactions, race and class as well as identity and culture. Engaging a range of disciplines and themes, this volume offers a critical examination of the unique experiences, challenges and practices of Caribbean tourism.
