Radical Amazement: Contemplative Lessons from Black Holes, Supernovas, and Other Wonders of the Universe Judy Cannato

Twentieth century science completely revolutionized human understanding of the world, rewriting the story of the universe with exciting discoveries and theories--the big bang, the relativity of space and time, the accelerating expansion of the universe, along with increasingly refined ideas of evolution and the origin of life. Radical Amazement unifies the worlds of science and religion, weaving profound spiritual lessons from our new knowledge. Through thoughtful and practical reflections, enhanced by prayers and meditations, Judy Cannato reveals the connectedness of all creation and invites us to explore the harmony of science and spirituality.
