Surgery for Ovarian Cancer: Principles and Practice Robert E. Bristow, Beth Y. Karlan, Dennis S. Chi

This comprehensive surgical text has been updated and expanded and includes the important techniques essential to the effective management of ovarian cancer, with particular emphasis on providing a practical "step-by-step" approach to the techniques described.

This new edition now includes; new operative photographs, robotics, the new instruments and energy sources involved in preoperative preparation, plus three new chapters on the surgical issues for intraperitoneal chemotherapy, minimally invasive surgery, and ovarian cancer surgical program development.

With a companion website containing video clips of the surgical procedures, this package will be essential for gynaecologic oncologists, pelvic surgeons, and general surgeons operating on patients with known or suspected ovarian cancer.
