*Edmund Husserl*

## **Ideas for a Pure Phenomenology and Phenomenological Philosophy: First Book: General Introduction to Pure Phenomenology: 1 (Hackett Classics) Edmund Husserl**

Husserl's *Ideas* is one of the most important works of twentieth-century philosophy, offering a detailed introduction to the phenomenological method, including the reduction, and outlining the overall scope of phenomenological philosophy. Husserl's explorations of the a priori structures of intentionality, consciousness, perceptual experience, evidence and rationality continue to challenge contemporary philosophy of mind. Dan Dahlstrom's accurate and faithful translation, written in pellucid prose and in a fluid, modern idiom, brings this classic work to life for a new generation. --Dermot Moran, University College, Dublin
