Atlas of Rhinoscopy

Eiji Yanagisawa

Atlas of Rhinoscopy Eiji Yanagisawa

This full-color atlas includes outstanding photography of endoscopic sinonasal anatomy, pathology, and surgery. It also illustrates the technique of rhinoscopy, sinuscopy, and nasopharyngoscopy. This comprehensive book includes useful clinical cases that clearly illustrate the application of knowledge to real-life experiences. It covers new surgical techniques such as powered instrumentation and computer-aided endoscopic sinonasal surgery. This valuable resource is a compilation of some 70 articles on sinonasal anatomy and pathology that appeared in Rhinoscopic Clinic Section of the Ear, Nose, and Throat Journal over the last six years, plus never-published case studies. Find all the information you need in one comprehensive resource.

From reader reviews:

Marcus Leiva:

Do you have favorite book? If you have, what is your favorite's book? E-book is very important thing for us to know everything in the world. Each reserve has different aim as well as goal; it means that publication has different type. Some people experience enjoy to spend their time to read a book. These are reading whatever they consider because their hobby is usually reading a book. How about the person who don't like looking at a book? Sometime, particular person feel need book after they found difficult problem or even exercise. Well, probably you will need this Atlas of Rhinoscopy.

Marcos Gorman:

What do you think of book? It is just for students because they are still students or this for all people in the world, what the best subject for that? Only you can be answered for that query above. Every person has various personality and hobby for every other. Don't to be obligated someone or something that they don't would like do that. You must know how great as well as important the book Atlas of Rhinoscopy. All type of book could you see on many sources. You can look for the internet options or other social media.

Patricia Nebeker:

Many people spending their time period by playing outside using friends, fun activity using family or just watching TV all day long. You can have new activity to spend your whole day by studying a book. Ugh, think reading a book will surely hard because you have to accept the book everywhere? It okay you can have the e-book, getting everywhere you want in your Cell phone. Like Atlas of Rhinoscopy which is finding the e-book version. So , why not try out this book? Let's observe.

Charles Bryce:

Do you like reading a reserve? Confuse to looking for your preferred book? Or your book ended up being rare? Why so many problem for the book? But virtually any people feel that they enjoy regarding reading. Some people likes studying, not only science book but in addition novel and Atlas of Rhinoscopy as well as others sources were given expertise for you. After you know how the truly great a book, you feel need to read more and more. Science reserve was created for teacher or maybe students especially. Those publications are helping them to add their knowledge. In other case, beside science publication, any other book likes Atlas of Rhinoscopy to make your spare time considerably more colorful. Many types of book like this one.
