Pergamon Press, attracted by the outstanding quality both in production and cartographic content of the Polish Atlas Swiata, prepared and printed by the Polish Army Topographical Service, decided to make this major work more widely available by arranging with PWN - Polish Scientific Publishers in Warsaw for the production of an English edition. The result is the Pergamon World Atlas - one of the most comprehensive works of this kind ever to be published! This massive atlas (weighing nearly 5.5 kilograms and containing 48 square meters of maps) is of high cartographic and aesthetic quality, and provides a rich assortment of thematic (over 400) as well as hundreds of physical and political maps. Includes pictures of the flag and a synopsis for each country. Liberal yet tasteful and effective use of tinted colors, especially for topography and bathymetry. Rich use of symbolism creatively conveys the data in a clear manner. Many maps of urban areas. Printed on beige paper. Printed in Warsaw, Poland. Book No. 080019587. Post and screw binding coupled with frequent use of fold-out maps eliminates any problem with the gutter.
