Approaches to Anthroposophy: Human Life from the Perspective of Spiritual Science Rudolf Steiner
These lectures provide an excellent introduction to some of the leading themes of anthroposophy. Steiner carefully corrects certain misunderstandings that had arisen regarding his spiritual-scientific research and demonstrates how anthroposophy has nothing whatever to do with mysticism or spiritualism; nor is it simply a revival of ancient esoteric teachings. Rather, it is a genuinely modern spiritual teaching for Western humanity that builds upon the achievements of science and develops its exact methodology further into the investigation of spiritual realities through the awakening of higher organs of perception.
