Blogger: Beyond the Basics (From Technologies to Solutions) Lee Jordan

Written in a clear, easy-to-read style, the book takes you through the essential tasks required to create a feature-rich blog as quickly as possible. From initial setup to customizing modules, each task is explained in a clear, practical way using an example blog developed through the book. You'll also learn how to market and measure the success of your blog using Google web applications and other popular tools. This book deals with using the current Blogger and third-party tools to optimize and create widgets for your blog. You'll transform your blog using existing tools then take it further with more challenging approaches to customizing your blog. All the steps involved in each example are listed under the section called "Time for action". Similarly, the results of that action are listed under the section called "What just happened". This structure adds to the clear, simple, and focused approach of the book. The book is aimed at current users of the Blogger platform who want to get the most out of Blogger and people who use a different blogging platform and are planning on switching to Blogger. Blog owners who promote their own services, expertise, and products, and want to increase their blog's success by pushing the limits of what Blogger can do will get the most out of this book. The book doesn't require any specific knowledge of Blogger or the related technologies: RSS, CSS, HTML, and XML. Everything you need to know to grow beyond the basics is covered in this book. The companion website to this book (<http://bloggerbeefedup.blogspot.com>) includes free resource images and content.

From reader reviews:

Athena Thornton:

What do you about book? It is not important along? Or just adding material when you want something to explain what the one you have problem? How about your free time? Or are you busy man? If you don't have spare time to complete others business, it is make you feel bored faster. And you have time? What did you do? Everyone has many questions above. They must answer that question mainly because just their can do that. It said that about guide. Book is familiar on every person. Yes, it is suitable. Because start from on kindergarten until university need that Blogger: Beyond the Basics (From Technologies to Solutions) to read.

Lois Schooley:

Reading a guide tends to be new life style in this era globalization. With reading you can get a lot of information that will give you benefit in your life. With book everyone in this world can certainly share their idea. Books can also inspire a lot of people. A lot of author can inspire their own reader with their story or even their experience. Not only the storyplot that share in the ebooks. But also they write about advantage about something that you need example of this. How to get the good score toefl, or how to teach children, there are many kinds of book that you can get now. The authors on this planet always try to improve their proficiency in writing, they also doing some exploration before they write to the book. One of them is this Blogger: Beyond the Basics (From Technologies to Solutions).

Diana Slama:

Can you one of the book lovers? If so, do you ever feeling doubt while you are in the book store? Try and pick one book that you never know the inside because don't judge book by its protect may doesn't work this is difficult job because you are frightened that the inside maybe not while fantastic as in the outside search likes. Maybe you answer can be Blogger: Beyond the Basics (From Technologies to Solutions) why because the amazing cover that make you consider regarding the content will not disappoint a person. The inside or content is fantastic as the outside or even cover. Your reading sixth sense will directly make suggestions to pick up this book.

Jack Murray:

As a student exactly feel bored for you to reading. If their teacher expected them to go to the library or even make summary for some e-book, they are complained. Just very little students that has reading's heart or real their passion. They just do what the educator want, like asked to the library. They go to presently there but nothing reading critically. Any students feel that studying is not important, boring in addition to can't see colorful photos on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this period, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Blogger: Beyond the Basics (From Technologies to Solutions) can make you feel more interested to read.
