## Chemical Information Mining: Facilitating Literature-Based Discovery

### *The First Book to Describe the Technical and Practical Elements of Chemical Text Mining*

*Explores the development of chemical structure extraction capabilities and how to incorporate these technologies in daily research work*

For scientific researchers, finding too much information on a subject, not finding enough information, or not being able to access full text documents often costs them time, money, and quality. Addressing these concerns, **Chemical Information Mining: Facilitating Literature-Based Discovery** presents strategic ideas for properly selecting and successfully using the best text mining tools for scientific research.

*Links chemical and biological entities at the heart of life science research*

The book focuses on information extraction issues, highlights available solutions, and underscores the value of these solutions to academic and commercial scientists. After introducing the drivers behind chemical text mining, it discusses chemical semantics. The contributors describe the tools that identify and convert chemical names and images to structure-searchable information. They also explain natural language processing, name entity recognition concepts, and semantic web technologies. Following a section on current trends in the field, the book looks at where information mining approaches fit into the research needs within the life sciences.

*Shaping the future of scientific information and knowledge management*

By building knowledge and competency in the growing area of literature-based discovery, this book shows how text mining of the chemical literature can increase drug discovery opportunities and enhance life science research.

### **From reader reviews:**

#### **Michelle Chase:**

Here thing why that Chemical Information Mining: Facilitating Literature-Based Discovery are different and trustworthy to be yours. First of all reading through a book is good but it really depends in the content from it which is the content is as delightful as food or not. Chemical Information Mining: Facilitating Literature-Based Discovery giving you information deeper and in different ways, you can find any guide out there but there is no reserve that similar with Chemical Information Mining: Facilitating Literature-Based Discovery. It gives you thrill reading journey, its open up your personal eyes about the thing that happened in the world which is might be can be happened around you. You can actually bring everywhere like in park, café, or even in your approach home by train. If you are having difficulties in bringing the imprinted book maybe the form of Chemical Information Mining: Facilitating Literature-Based Discovery in e-book can be your substitute.

#### **Blair Chappell:**

Reading a book can be one of a lot of task that everyone in the world loves. Do you like reading book therefore. There are a lot of reasons why people like it. First reading a publication will give you a lot of new data. When you read a book you will get new information mainly because book is one of numerous ways to share the information or even their idea. Second, studying a book will make you more imaginative. When you examining a book especially hype book the author will bring that you imagine the story how the people do it anything. Third, you could share your knowledge to other people. When you read this Chemical Information Mining: Facilitating Literature-Based Discovery, you may tells your family, friends in addition to soon about yours publication. Your knowledge can inspire others, make them reading a publication.

#### **Ryan Young:**

Your reading sixth sense will not betray anyone, why because this Chemical Information Mining: Facilitating Literature-Based Discovery guide written by well-known writer who really knows well how to make book that may be understand by anyone who also read the book. Written in good manner for you, still dripping wet every ideas and producing skill only for eliminate your hunger then you still skepticism Chemical Information Mining: Facilitating Literature-Based Discovery as good book not only by the cover but also by content. This is one book that can break don't determine book by its deal with, so do you still needing another sixth sense to pick this particular!?! Oh come on your reading through sixth sense already alerted you so why you have to listening to one more sixth sense.

#### **Rex Vogler:**

Are you kind of occupied person, only have 10 or maybe 15 minute in your moment to upgrading your mind expertise or thinking skill possibly analytical thinking? Then you have problem with the book in comparison with can satisfy your short space of time to read it because all of this time you only find e-book that need

more time to be learn. Chemical Information Mining: Facilitating Literature-Based Discovery can be your answer mainly because it can be read by an individual who have those short extra time problems.
