Land Administration (Spatial Information Systems and Geostatics Series)

Peter F. Dale, John D. McLaughlin

Land Administration (Spatial Information Systems and Geostatics Series) Peter F. Dale, John D. McLaughlin

This interdisciplinary work provides a high level overview of recent advances in building formal property systems throughout the world and reviews the role of property in advancing a society's economic and social agenda. It undertakes an in-depth examination of the land administration infrastructure required to support these modern property systems, giving particular attention to survey, registration, valuation, and land use control functions.
